## The topic of the day was "Why are We Fat!!!"

Our scheduled speaker for the day was a no show - so we had to reach down to the minor leagues and bring up a rookie to pitch. Yours truly was brought in without even a warm up pitch or two and, well, it could have gone worse. According to our speaker, who has absolutely no qualifications in this area outside of being a 252 pound fatso, 20% of all Americans are medically obese and nearly 1/3 of Floridians also qualify for that distinction. Unfortunately, Florida is not number one in that category, losing out to the great State of Mississippi for the top spot, but I think we may be rapidly closing in on them. Ninety-seven percent of all Floridians are dependent upon the automobile to get to work, carefully avoiding the urge to walk or ride a bike to work. "But, it's hot out there and my car has A/C!" Each adult needs 30 minutes of exercise per day to burn off the Big Macs we love to eat. The easiest way to do that is by walking or riding a bike (or maybe boxing or swimming or using the (boring) elliptical machine at LA Fitness so as to wear off the calories from that giant slice of pizza with extra sausage and pepperoni. You might also ask, "Where are the walking paths and special bike lanes". But, "we have those" bike lanes, and they are buffered by an impressive 4" white line to keep the cars traveling at excessive speeds from possibly crushing us as we try to bike off Starbucks' latest coffee creation. Some of us even have sidewalks, but most of us walk around our neighborhoods in the gutter or street daring cars to hit us. A terrific discussion followed the presentation with excellent questions and suggestions, with some Rotarians ready to take this problem on as a major club project. We'll see where that goes.
